SASTRA DEEMED-TO-BE UNIVERSITY
END SEMESTER EXAMINATIONS
B.Tech. - V SEMESTER
November 2023

DURATION: 3 Hrs. **MAX. MARKS: 100**

CSE304: PYTHON PROGRAMMING WITH WEB FRAMEWORKS
QUESTION CODE: DJFNQ4

Create a web-based Django application for maintaining Staff details in university in DB. Design a Model STAFF_PERSONAL for storing personal details such as staff id, name, Age, Mobile no, E-mail id, Department. The application has the following functions:

(i) New_staff ()- add necessary details to new staff to the database

(ii) Search()-Search the staff based on the department and name

(iii) Delete()-Remove the staff details from the database

(iv) Update()-Modify e-mail id and mobile number of the staff.

Demonstrate the functionalities by creating the necessary models and forms along with the corresponding html files as required.
